I am hoping that you talked to Catherine. Just let us know if we need to call you at 8:15am. As you stated, we will be able to talk more Thursday.

Sorry if this caused confusion!
Candice

Initially I was not planning on calling in or being there for either the wild rice or a nutrient discussion. It sounds like the nutrient discussion is a more recently planned meeting, and depending on when the meeting is, I could certainly move around events on my schedule to be a part of the discussion.

I've got a meeting with Catherine in 20 minutes and I can get back to you on timing and personnel. Regardless, we are still on for the Delano meeting on Thursday.

Steve

Hi Steve- Kathryn scheduled a time for WQS and NPDES to meet to with her and other MPCA folks to discuss issues related to nutrients. My understanding is that we were going to discuss nutrient permitting issues raised during the MCEA meeting today. Are you planning on calling in for that or are you going to be here for the meetings re: wild rice and thus be available for a face-to-face on this issue? Just trying to line up the right folks for the discussion on my end and get prepared.

If you can let me know what you are thinking, I would appreciate it. I still have Thursday on our calendars to discuss the Delano permit comments in particular. I am free today until 4:30Central if you want to chat.
